

VISHNU VARDHAN PENTA

Hyderabad, India | [8008973553](tel:8008973553) | vishnuvardhan.penta@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Data Analyst with 5 years of experience delivering business intelligence, financial reporting, and data analytics solutions across Finance, Healthcare, E-commerce, Semiconductor and Rubber industry domains. Proficient in Power BI, SQL Server, MySQL, Advanced Excel, DAX, Power Query, Data Modeling, ETL, dashboard development, KPI reporting, data visualization, and reporting automation. Experienced in data extraction, cleaning, mapping, validation, reconciliation, trend analysis, rebate calculations, VBA macros, cloud data migration, and working with large datasets. Adept at translating business requirements into actionable insights and collaborating with finance, sales, operations, and business stakeholders.

SKILLS

SQL: SQL Server, MySQL, Data Extraction, Joins, Aggregations, Query Optimization

BI: Power BI, DAX, Power Query, Data Modeling, Dashboard Development, Data Visualization, KPI Reporting

Excel: Advanced Excel, Pivot Tables, Power Pivot, XLOOKUP, VLOOKUP, Data Cleaning, Data Mapping, VBA Macros

Analytics: Data Analysis, ETL, Data Validation, Data Reconciliation, Trend Analysis, Dynamic Reporting

Automation: Report Automation, Data Cleaning Automation, Process Automation, Workflow Automation, Excel VBA, Google Apps Script, Google Sheets Automation

Other: Python (Basics), Cloud Data Migration

PROFESSIONAL EXPERIENCE

Analytics & Modeling Analyst | Accenture (Intel Client) | Aug 2025 – Present

- Developed interactive Power BI dashboards and reports to provide business stakeholders with actionable insights and support data-driven decision-making.
- Automated data cleaning and preprocessing using Excel VBA for customer-provided manual Excel files before database upload, improving data quality and reducing manual processing effort.
- Handled 100K+ records for data cleaning, validation, mapping, and reporting activities while maintaining data accuracy and consistency.
- Performed data validation, cleansing, and mapping using Advanced Excel, VBA, Power Query, and Excel add-ins to prepare data for downstream database and reporting processes.
- Used Lookup functions, Pivot Tables, Power Query, and Power Pivot for data transformation, reconciliation, analysis, and reporting.
- Performed rebate calculations and business data analysis using Advanced Excel and supported stakeholders with accurate reporting outputs.

Data Analyst | Exel Group (SPINMAX, EXEL, ACE, VILLAS) | Aug 2024 – Aug 2025

- Developed interactive Power BI dashboards for Financial P&L, Balance Sheet, Sales, and Cost analysis, providing management with consolidated business and financial insights.
- Created DAX measures for MTD, QTD, and YTD reporting, along with regional analysis, trend analysis, and performance tracking.
- Worked with SQL views and tables to consolidate data from four companies into a unified database, including data cleaning, transformation, mapping, and formatting according to reporting requirements.
- Supported migration of on-premises databases to cloud databases, taking responsibility for data accuracy, validation, reconciliation, and consistency throughout the migration process.
- Performed SQL-based data validation and reconciliation between source and target databases to identify discrepancies and ensure reliable reporting outputs.
- Created Excel-based backup reports to maintain reference values and support database validation during migration and reporting processes.
- Developed reporting solutions used by board members, customers, finance, and operations stakeholders for business performance monitoring and decision-making.

- Collaborated with business and technical teams to understand reporting requirements and translate them into Power BI dashboards, SQL data solutions, and Excel reports.

MIS Data Analyst | Yashoda Hospitals | Jan 2024 – Aug 2024

- Created interactive Excel and Power BI dashboards to track operational KPIs and performance metrics.
- Developed trend analysis reports to monitor operational efficiency and compare actual performance against targets.
- Analyzed department-wise patient flow and revenue data to identify trends and support operational planning.
- Developed revenue forecasts to support financial and operational decision-making.

Data Analyst | Carbanio (B2B eCommerce) | Apr 2022 – Dec 2023

- Extracted business data from databases using SQL queries and prepared datasets for BI reporting and analysis.
- Analyzed B2B chemical sales data across WTD, MTD, and QTD periods to identify trends and forecast future sales flow.
- Developed dynamic Power BI dashboards to track sales KPIs, target achievement, and conversion rates across regions, employees, and business domains.
- Built employee and regional sales performance dashboards to identify performance gaps and support sales target optimization.
- Developed dynamic Power BI reports displaying live business values across multiple companies, enabling consolidated performance monitoring.
- Worked with 20 lakh+ records, performing data extraction, transformation, analysis, and reporting using SQL, Power Query, and Power BI.
- Automated recurring reports and reporting processes, reducing repetitive manual work and improving reporting efficiency.
- Identified region-wise sales gaps and analyzed sales performance to support strategies for increasing sales and optimizing operational costs.
- Collaborated with cross-functional teams to understand sales requirements, KPI definitions, and reporting needs and deliver customized BI solutions.

EDUCATION

Master of Business Administration (Finance)

Osmania University | 2023 – 2025

Bachelor of Science (Life Sciences)

Osmania University | 2019 – 2022

CERTIFICATIONS

- MySQL for Data Analytics and Business Intelligence – Udemy
- SQL Data Reporting & Analysis – LinkedIn
- Advance Power BI – LinkedIn Learning
- Business Analysis – Coursera
- Microsoft Office 365 Tools – SRT Institute
